Testing Your Device

NAP NAP Locked down browser
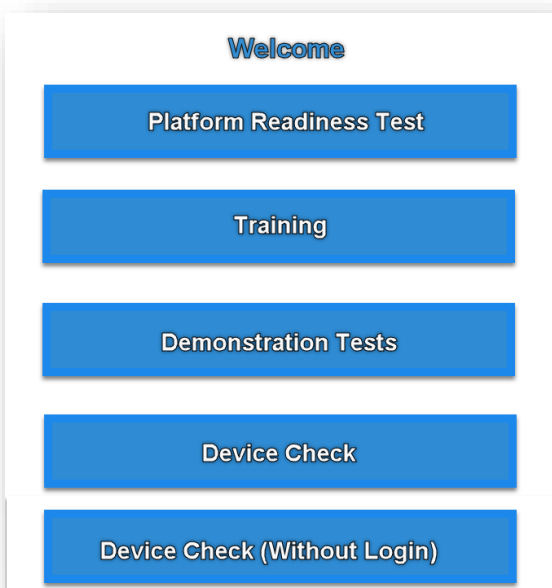

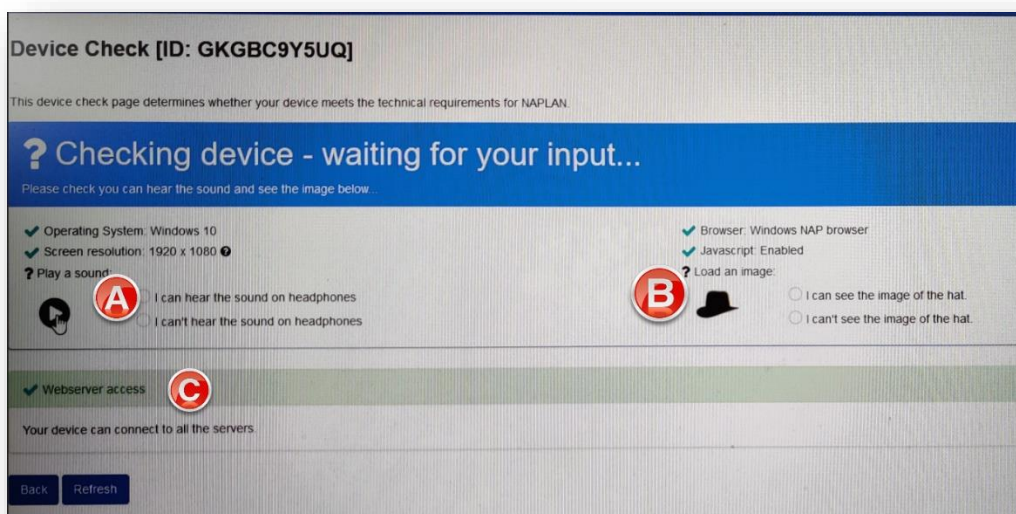

1. Choose Nap Locked down browser from the menu

Please note when you Launch the lock down browser all other programs in the background will close, this is NORMAL

All Students should have their Headphones when performing this test

Welcome

- Platform Readiness Test
- Training
- Demonstration Tests
- Device Check
- Device Check (Without Login)

2. You will be then be presented with several option boxes, choose Device Check (Without Login)

Device Check [ID: GKGBC9Y5UQ]

This device check page determines whether your device meets the technical requirements for NAPLAN.

? Checking device - waiting for your input...

Please check you can hear the sound and see the image below.

✔ Operating System: Windows 10
✔ Screen resolution: 1920 x 1080 ❷
? Play a sound

(A) I can hear the sound on headphones
I can't hear the sound on headphones

✔ Browser: Windows NAP browser
✔ Javascript: Enabled
? Load an image:

(B) I can see the image of the hat.
I can't see the image of the hat.

✔ Webserver access (C)

Your device can connect to all the servers

Back   Refresh

3

Once the Test Loads you are presented with three tests (**A**) if you can Hear the sound click on **the I can hear the sound check box.**

(**B I can see the Image Check Box   © Whether the laptop can reach the server (network)**
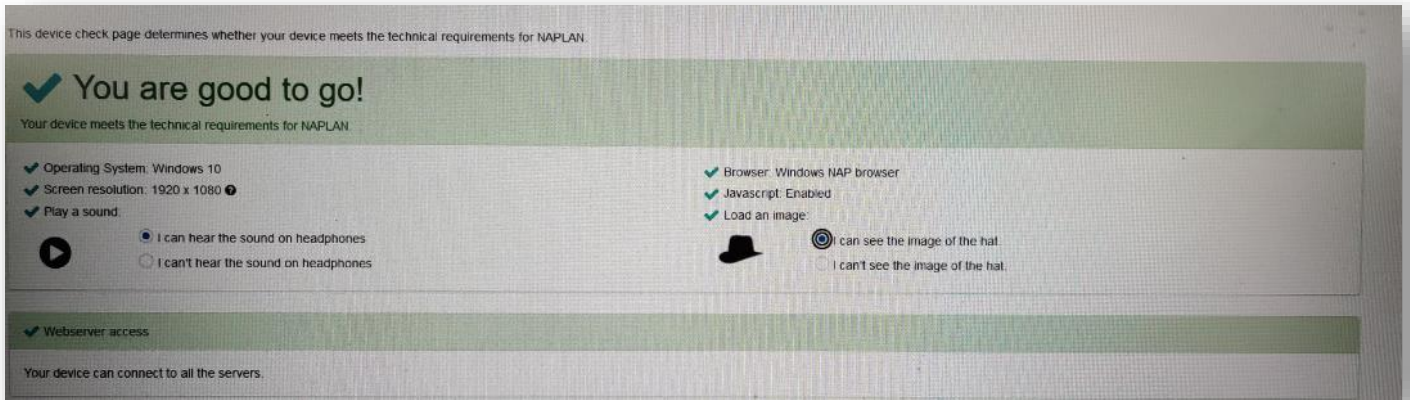

4 If everything is ok you will get the above image and you can go ahead and close the window

5. You can close the Naplan Browser using the cross in the Bottom Right Corner of the screen
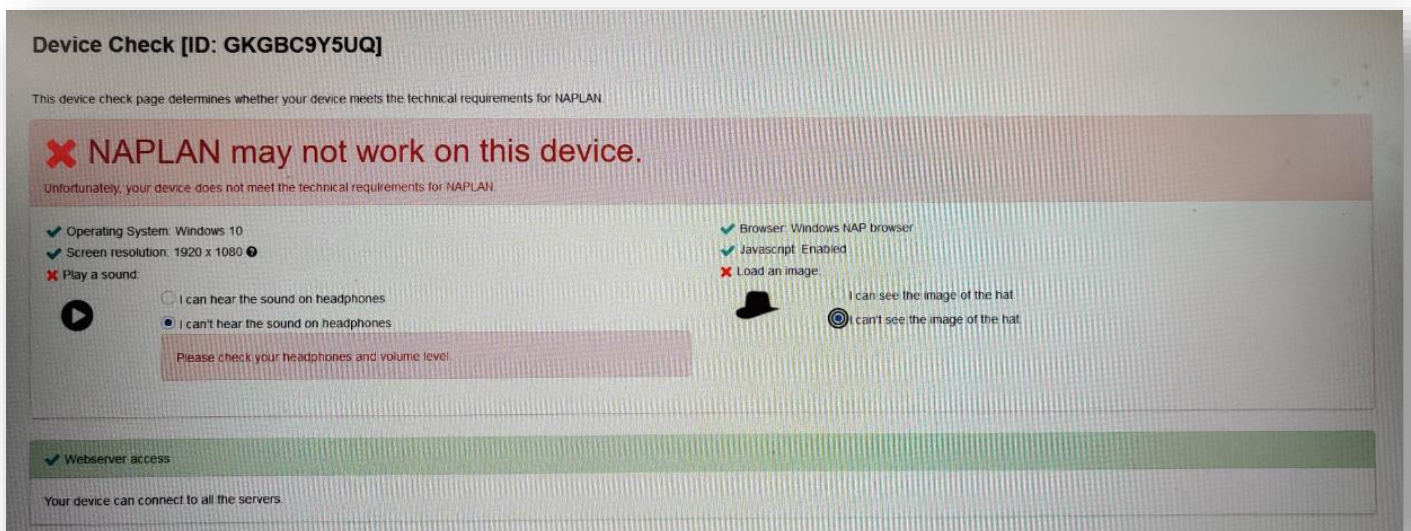

6. If something fails you will be presented with a screen similar to the above, I would suggest do a restart and try again Making sure if a sound issue then make sure Headphones are seated correctly.
